OFFICE OF LEGISLATIVE COUNSEL

Monday - 1 December 1975

1. [REDACTED] HEARING After a discussion with [REDACTED]
[REDACTED] SE/Division, DDO, I called Duke
Short, Senior Investigator, Senate Judiciary Subcommittee on Internal
Security, and arrangements were made for Short to meet [REDACTED]
[REDACTED] to go over his testimony and make necessary
corrections or additions.

2. [REDACTED] LEGISLATION Ann Stone,
OMB, called to clear a comment by HEW in their report on S. 2515.
HEW was objecting to the providing of classified information to the
President's Commission to be established under S. 2515 since it
would inhibit the open discussion and examination of behavioral research
on humans. I informed her that we would have no objection to the inclusion
of this comment.

3. [REDACTED] INTELLIGENCE BRIEFING Called Allen
Yuspeh, of Senator Bennett Johnston's (D., La.) office, to reschedule our
Wednesday briefing on the Middle East for the Senator from 5:00 p.m. to
3:30 p.m. He said that the Senator wanted to see the prepared statement
of the Director's House International Relations testimony before the briefing.
I said I doubted this would be possible.

✓ 4. [REDACTED] LEGISLATION Called Roger Kirk,
State Department, regarding the proposed letter for the President to
Senator Frank Church (D., Idaho) on the role of the ambassador legislation
and subsequently talked to Gil Kulick. At about 2:55 p.m., Kulick advised
that State had agreed with Mr. Cary's draft with a slight change and
intended to close the letter with State's proposed reply. I told Kulick that
we did not feel that the last sentence in the last paragraph was necessary.
He said that that point had been carefully deliberated at higher levels.
I did point out, however, that the reference to the airgram in the last
paragraph was bothersome because the text of that airgram incorrectly
expands the meaning of the legislation. [REDACTED] was
advised.
